Magnesium–bismuth alloys 97
Magnetic anisotropy 146, 249, 332
Magnetic field 226
Magnetic frustration 41, 104
Magnetic moment 249
Magnetic properties 209
Magnetite 321
Mask-edge effects 345
Mean-field theory 321
Metal–insulator transition 226, 332
Metallic n-type InP 378
Mössbauer 356
Mössbauer spectroscopy 340
Molecular dynamics simulation 92, 100
Momentum distribution 267
Monte Carlo simulation 41
Multidetector spectrometer 112
Muon spin relaxation 165

neV resolution 49
Nano-particles 49
Nanostructures 373
Neutron diffraction and scattering 310
Neutron reflectivity 198
Neutron scattering 108, 112, 290, 368
Neutron spin echo 49
NFL 229
Nitride 146
Noncollinearity 256
Nonlinear waves in solid 173

Order–disorder transition 56
Organic compounds 56

Paddle–wheel mechanism 60
Pair-kinetic-levels sum and difference 229
Perovskite 368
Phase transitions 310, 368
Phonon line widths 75
Phonon–plasmon waves 217
Photoacoustic spectroscopy 139
Photoluminescence 185
Picosecond molecular dynamics 20
Polyethyleneglycol 100
Polymers 13
Polymer dynamics 1
Polymer electrolytes 100, 126
Positive magnetoresistance 378
Pressure 13, 56
Pressure-induced phase transitions 290
Protein dynamics 27, 35
Protein folding 20

Quantum dots 185, 361, 373
Quantum entanglement 198
Quasicrystals 165
Quasielastic neutron scattering 1, 20, 27, 56, 87, 100, 126

Rare earth compounds 165, 356
Rare-earth iron compounds 146
Reptation 49
Rotator phases 60

Sample holder 112
Selective etching 345
Shape effect 373
Shubnikov–de Haas effect 185
Size effect 373
Si/water interface 198
Spin echo 75
Spin freezing 104
Spin glass 104
Spin liquid 41
Spin reorientation 249
Spin-wave analysis 382
Strong localization 185
Supercooling 92
Superlattices 217
Superposition model 162
Surface acoustic waves 173
Surface distortion 361
Surface fitting 126
Surface patterning 345

Th-oxide 282
Th-silicate 282
$ThMn_{12}$ structure 146
Thermal expansion coefficients 282
Thermal fluctuations 300
Thin films 192
Three-electron system 373
Time-of-flight 115
Torsional motion 100
Triple-axis 115
Two-sublattice model 209

User support 131

Verwey transition 321

Water in confined media 87
Water 92, 198

$Y(T, Fe)_5$ 356

ZnS 162
